

AFRINA SYUHADA BINTI JEFFRI SEM

Final-Year Computer Science (Networking) Student

Networking | Cybersecurity | AI | IoT

afrina.syuhadaa@gmail.com | +60 19 663 0192 | Kampung Baru, Kuala Lumpur | www.linkedin.com/in/afrnsyhda

PROFESSIONAL SUMMARY

Computer Science (Networking) undergraduate at Universiti Teknologi MARA (CGPA 3.30) with a strong interest in networking and cybersecurity. Experienced hands-on network configuration, routing and switching, SIEM monitoring, and log analysis through academic projects and laboratory exercises. Participated in Capture The Flag (CTF) competitions and proficient in Cisco Packet Tracer, Wireshark, GNS3, Kali Linux, Security Onion, and Elastic Kibana. Seeking a 14-week internship (7 September – 11 December 2026) to apply and further develop technical skills in a professional environment.

EDUCATION BACKGROUND

Bachelor of Computer Science (Hons.) Networking

2023 – 2026

Universiti Teknologi MARA (UiTM) · Shah Alam, Selangor | Current CGPA: 3.30

Coursework: TCP/IP, Network Programming, Information and Network Security, Routing and Switching, Network Operation System and Administration, Network Infrastructure Security, Network Design and Management, Wireless Network, Internet of Things (IoT)

Diploma of Electrical & Electronics Engineering

2020 – 2023

Universiti Teknologi MARA (UiTM) · Dungun, Terengganu | CGPA: 3.50

Coursework: Calculus, Computer programming, Electro-Technology, Electric Circuit, Safety Health and Ethics, Basic Communication Engineering, Linear System, Electronics, Digital Systems

Sijil Pelajaran Malaysia (SPM)

2015 – 2019

Maktab Rendah Sains MARA (MRSM) · Bentong, Pahang | SPM: 7A's

Subjects: Electrical and Electronics Engineering, Engineering Drawing

TECHNICAL SKILLS

Programming Languages | Python, C, C++, Java, Assembly Language

Networking | Cisco Packet Tracer, Putty, TeraTerm, GNS3, WireShark

Cybersecurity | Kali Linux, Powershell, SIEM, Capture The Flag (CTF)

AI | Natural Language Processing (NLP), Machine Learning (ML)

Engineering | MATLAB, NI Multisim, Proteus, Arduino IDE, Blynk, AutoCAD

Infrastructure & Tools | VMWare, VirtualBox, Github

PROJECTS

Final Year Projects

- **AI-Based Log Aggregation Techniques for SIEM**
 - Aggregate logs from multiple sources into a unified format, applying NLP and Machine Learning to classify and prioritize security events for faster SIEM analysis
 - Python, Natural Language Processing (NLP), Machine Learning (ML), Security Information Event Management (SIEM)
- **Stock Counter & Sorter Using Arduino**
 - Designed and built an Arduino-based prototype that automatically detects, counts and sorts items on a conveyor system, simulating a use case for industrial and warehouse sorting centers
 - C/C++, Arduino UNO, Arduino IDE, Proteus

Internship Project

- **IoT-Based Server Room Temperature Monitoring System**
 - Developed a monitoring solution to track server room temperature at UTM Digital KL, addressing recurring air-conditioning failures and helping prevent equipment overheating.
 - C/C++, Arduino IDE, NodeMCU ESP8266, Proteus, Blynk

Coursework

- SIEM Dashboard Monitoring & Analysis using ELK Stack
 - Built a security monitoring dashboard using a public network-log dataset, configuring visualizations to detect anomalies and suspicious activity patterns
 - Kaggle, Elasticsearch, Kibana

AWARDS & PARTICIPATION

(1st Place) | RTWH 4.0 Mini CTF Challenge
(2nd Place) | Questronics Hackathon
(3rd Place) | UiTM Ideathon: DLM ICP Campus Network
(1st Place) | Yes! MyNextMove Career Explorace
Participant | ICS Cyber Siege CTF
Participant | Debate Show, UiTM Dungun vs UiTM Jengka

LEADERSHIP & VOLUNTEERING

Training Exco UiTM Cyberheroes Club | Helped in assisting club's events and cybersecurity programmes
Vice President Robotic Club UiTM Dungun | Organized Arduino workshop and coordinated club events
Arduino SULAM Facilitator | Facilitated hands-on Arduino learning sessions to a high school students
UiTM Flood Disaster Volunteering Program | Assisted in cleaning homes of flood-affected victims
SULAM Cyber-Cartography | Delivered a talk on social media safety awareness to the public

WORK EXPERIENCE

Technician Intern — UTM Digital

Mar 2023 – Jul 2023

Universiti Teknologi Malaysia, Kuala Lumpur

- Assisted in troubleshooting hardware and software issues.
- Supported IT infrastructure maintenance.
- Performed system setup and configuration.
- Provided technical support to staff and users.
- Assisted with network-related troubleshooting activities.
- Built IoT-Based Server Room Temperature Monitoring System.

Part Time Customer Assistant — Watsons Malaysia

Feb 2023 – Jun 2023

KL Sentral, Kuala Lumpur

- Assisted customers with product inquiries and purchases.
- Managed inventory and product displays.
- Handled cashiering and customer service tasks.
- Developed communication and interpersonal skills.

LANGUAGE & REFERENCE

Languages | Malay (Native), English (Fluent), Japanese (Basic), German (Beginner)

Reference | Dr Norzilah Musa — Industrial Training Coordinator (Computing Sciences),
