## PROFESSIONAL SUMMARY

---

Results-driven cybersecurity and IT governance professional with over 8 years of experience in PCI-DSS compliance, IT security operations, threat intelligence, and regulatory governance within banking and payment environments. Experienced in managing audit evidence, security compliance reviews, vulnerability remediation, and operational risk controls. Seeking to transition into IT Audit, IT Governance, Risk & Compliance (GRC), or Technology Risk roles within the banking industry to contribute strong technical expertise in strengthening internal controls, regulatory compliance, and enterprise risk management frameworks.

## CORE COMPETENCIES

---

- IT Audit & Compliance Support
- PCI-DSS Compliance & Governance
- IT Governance, Risk & Compliance (GRC)
- Regulatory & Security Compliance
- Internal Control Assessment
- Security Operations & Incident Response
- Vulnerability Assessment & Remediation
- Threat Intelligence & SIEM Monitoring
- Risk Assessment & Security Review
- Firewall & IDS/IPS Monitoring
- Privileged Access Management (CyberArk)
- Audit Documentation & Reporting
- Stakeholder & Vendor Coordination

## WORK EXPERIENCE

---

**Cardzone Sdn Bhd** **Dec 2025 – Present**  
**Assistant Manager – IT Security & Compliance**

- Coordinated and managed end-to-end PCI-DSS compliance activities for banking and payment environments, including handling annual Attestation of Compliance (AOC) assessments with Qualified Security Assessors (QSA).
- Led infrastructure compliance initiatives by preparing audit evidence, tracking remediation findings, and maintaining compliance documentation.
- Monitored infrastructure compliance against PCI-DSS hardening standards, patching requirements, and security baselines.
- Managed operational security controls including firewall log reviews, privileged access monitoring, certificate lifecycle management, and vulnerability remediation tracking.
- Collaborated with internal teams, external clients, auditors, and vendors to ensure alignment with regulatory and security requirements.
- Conducted routine compliance and health checks for cloud servers, network appliances, HSMs, and security platforms while coordinating incident response activities with SOC teams.

**Skill Quotient Technologies Sdn Bhd** **May 2024 – Nov 2025**  
**IT Security Operations Specialist**

- Monitored and analyzed security events and alerts from SIEM, IDS, and security monitoring tools to identify potential threats and anomalies.
- Investigated and assessed security incidents, including severity analysis and escalation handling.
- Participated in vulnerability assessment cycles and coordinated remediation activities with internal stakeholders.
- Assisted in improving security monitoring and incident response processes by integrating threat intelligence into operational workflows.

**Merchantrade Asia Sdn Bhd** **Feb 2023 – Apr 2023**  
**Senior Executive – IT Security**

- Performed security incident analysis and assisted in forensic investigations for escalated security cases.
- Compiled Indicators of Compromise (IOCs) for SOC detection rule implementation and monitoring improvements.

- Prepared management reports and meeting documentation related to organizational security posture and risk findings.

**SysArmy Sdn Bhd**  
**Resident Engineer**

**Oct 2022 – Jan 2023**

- Performed analysis and basic forensic investigations for incident reports while maintaining security device health.
- Conducted preventive and corrective maintenance activities alongside routine health checks for managed security devices.

**SysArmy Sdn Bhd**  
**Threat Intelligence Analyst**

**Sept 2017 – Oct 2022**

- Managed and optimized SIEM correlation rules and security alert configurations.
- Supported incident response activities, post-incident analysis, and IOC-based detection rule development.
- Prepared threat intelligence documentation and operational security reports for management review.

**SysArmy Sdn Bhd**  
**Cyber Security Analyst**

**Feb 2017 – Aug 2017**

- Provided 24/7 security monitoring and surveillance for customer environments.
- Identified and escalated potential cyber attacks and suspicious activities.
- Delivered advisory recommendations for mitigating security threats and vulnerabilities.
- Prepared monthly security incident reports and presentations.

## EDUCATION

---

**Bachelor of Computer Science (Software Engineering)**  
 Universiti Malaysia Pahang

**2013 – 2017**

**Accountancy**  
 Kolej Matrikulasi Perlis

**2012 – 2013**

## CERTIFICATIONS

---

- Fortinet Network Security Expert (NSE 1 – NSE 3)
- Information Security Incident Handling
- Certified Security Awareness 1 (CISA1)
- Web Application Penetration Testing (WAPT)

## SKILLS

---

**Technical Skills**

- SIEM Platforms
- CyberArk PAM
- Fortigate Firewall
- FortiCloud EMS
- Skyhigh SWG
- VirusTotal
- AbuseIPDB
- IDS/IPS Monitoring Tools
- Vulnerability Management Tools

**Language & Communication**

- **Bahasa Malaysia:** Native
- **English:** Intermediate
